

# Welcome to Harrison County Highlights

## 2005 Edition

\*Highlights of Harrison County is a labor market information publication of the Indiana Department of Workforce Development.

This publication is provided annually for each of Indiana's 92 counties 11 Economic Growth Regions and the State of Indiana.

Each publication includes a variety of demographic information: population, labor force estimates, industry employment, industry annual average wages, and firms and employment by size and by industry.

If you need further information about your area, you may call the regional analyst listed below. If you need labor market information for other areas, you will find a map of the regional analysts at the back of this publication and posted on our Internet website under *Resources*.

Additional labor market information is available on our Internet website.

Our website address is <http://www.state.in.us/dwd/inews>

## SUMMARY OF HARRISON COUNTY HIGHLIGHTS

Harrison County's population estimate for 2004 was 36,376, up 6.0 percent from the 2000 Census total. During this same time period, Indiana's total 2004 estimated population of 6,237,569 was up by 2.6 percent.

According to the 2000 Census 18,028 people twenty-five years of age or over were high school graduates and/or had post-high school education. That represented 80.3 percent of the twenty-five and up county population. Of that population, 2,936 or 13.1 percent were four year college graduates or greater. In 2004, of the 437 persons graduating high school that year, 292 or 66.8 percent intended to go on to higher education.

A total of 3,248 workers or 18.1 percent of the workforce commuted into the county in 2003. Floyd County was sending the most workers into Harrison County. Conversely, 9,757 or 39.9 percent of the labor force commuted to work outside of the county. Kentucky received the most workers from Harrison County.

The estimated average unemployment rate for 2004 was 5.3 percent, above Indiana's annual average of 5.2 percent. The county's unemployment rate was based on an estimated average residential labor force of 18,980. Of that labor force 17,970 were employed and 1,010 were unemployed.

For the year 2004 there were 11,953 jobs at industries within the county. The largest employing industry in the county was leisure and hospitality services with 25.5 percent of the total industry employment and manufacturing second at 20.8 percent. The industry showing the most growth in workers over a three year period (since 2001) was professional and business services increasing by 168 workers or 46.0 percent above 2001. Twelve and two-tenths percent of employers in the county employed 20 or more workers and those represented 77.7 percent of all employment.

The all industry average 2004 earnings for the county was \$27,158 per year versus Indiana's \$34,693. The county average wage was an increase of 8.3 percent over the 2001 county industry average wage. Only 1 of Harrison County's 11 industry supersectors (including government) had annual average earnings greater than the Indiana average for those industries. The county's manufacturing industry had the highest average earnings at \$34,343 per year, with natural resources and mining second at \$30,908, while the industry with the lowest annual earnings number was other services at \$16,386. The same industries statewide paid an average \$47,638, \$34,117 and \$22,543 per year, respectively.

## POPULATION

### HARRISON COUNTY AND CITY POPULATION

COUNTY & Cities/Towns	1990 CENSUS	2000 CENSUS	2004* POPULATION ESTIMATES	NUMERICAL CHANGE FROM 2000-2004	PERCENT CHANGE FROM 2000-2004

## COMMUTING PATTERNS

### HARRISON COUNTY COMMUTING PATTERNS

Number of persons who live in Harrison County and work (labor force)	24,440
Number of persons who live in Harrison County and work in Harrison County	14,683
Number of persons who live out of and work in Harrison County	3,248
Total number of persons who work in Harrison County (work force)	17,931

#### Top five counties sending workers INTO Harrison County:

Floyd County	932
Crawford County	767
Clark County	531
Washington County	327
Kentucky	322
Total of above	2,879 equals 16.1% of work force

#### Top five counties receiving workers FROM Harrison County:

Kentucky	5,205
Floyd County	2,119
Clark County	1,410
Out of State	276
Jefferson County	165
Total of above	9,175 equals 37.5% of labor force

#### Top five counties sending workers INTO Harrison County:

#### Top five counties receiving workers FROM Harrison County:

## COMMUTING PATTERNS MAP

### HARRISON COUNTY

Data source: Indiana Dept. of Revenue IT-40 Returns for Tax Year 2003. Report generated by STATS Indiana, January 26, 2005. Counts of under 50 are not included. Commuters to/ from IL, MI, KY, OH, WI, and PA are reported separately and are not included in the 'Out of State' category.

## LABOR FORCE INFORMATION

### HARRISON COUNTY LABOR FORCE (1994 - 2004)

YEAR	LABOR FORCE	EMPLOYED	UNEMPLOYED	Harrison Co RATE	Indiana RATE
1994	16,710	16,040	670	4.0	4.5

## TECHNICAL NOTES

For over sixty years, industry information has been compiled using the Standard Industrial Classification (SIC) system. Since 1993, the industry data tables in this publication were classified by SIC.

Beginning with the 2002 issue of the Highlights report, new industry data tables are based upon the North American Industry Classification System (NAICS).

Developed jointly by the United States, Canada and Mexico to produce comparable data, NAICS was introduced in 1997 to replace the SIC system. Because of its' scope and complexity, the transition to NAICS has taken three years to complete and is now effective beginning with 2001.

NAICS provides a more specific classification system reflecting the economy's changing industrial composition. NAICS focuses on *how* products and services are created, as opposed to the SIC focus on *what* is produced.

This reorganization has created breaks in the industrial classification time series. Even though, for example, the Manufacturing industry group is still listed, the current statistical data for Manufacturing may not be comparable to what was previously shown.

*Example: An industrial machine company has its employment offices in a separate building. Those workers may now be listed in the Professional and Business Services industry under NAICS, rather than in Manufacturing. The same is possible for other industries.*

NAICS uses a six digit hierarchical coding system to classify all economic activity. NAICS-United States allows for the identification of 1,170 industries compared to the 1,004 found in the SIC system. NAICS classifications are reviewed every three years. For purposes of this publication we will be classifying economic activities into 11 NAICS 'super sectors' and 15 NAICS sectors.

\* \* \* \* \*

The following is a listing of the NAICS 'super sectors' we will be using:

**Natural Resources & Mining** includes agriculture, forestry, fishing, hunting, and mining.

**Construction**

**Manufacturing**

**Trade, Transportation & Utilities** includes wholesale and retail trade, utilities, transportation, and warehousing.

**Information** includes publishing, motion pictures, sound recording, broadcasting, Internet publishing, telecommunications, ISPs, search portals, data processing, news syndicates, libraries, and archives.

**Financial Activities** includes finance, insurance, real estate, and rental and leasing.

**Professional & Business Services** includes professional, scientific, and technical services, management of companies and enterprises, administrative/support, and waste management and remediation services.

**Education & Health Services** includes educational and health services, health care, and social assistance.

**Leisure & Hospitality** includes arts, entertainment, recreation, accommodation, and food services.

**Other Services** includes repair, maintenance, personal, laundry services and religious, grant making, civic, social, and professional organizations and private households.

**Federal, State & Local Government** includes total government employment.
